## ONTARIO INDUSTRIAL ROOFING CONTRACTORS ASSOCIATION

---

### 2012 AGM

The 2012 OIRCA Annual General Meeting (AGM) will be held on Thursday, January 26, 2012 at 2 p.m. The meeting location will once again be Toronto's distinctive Old Mill located at 21 Old Mill Road in west-end Toronto. The AGM will be held in conjunction with two morning business sessions (see accompanying story).

The AGM is a very important meeting that all members should consider attending. In addition to a recap of a very busy 2011, the business of the Association will be mapped out for 2012. Reports from the President, the Executive Director and Committee Chairs will provide you with an update on what your Association has achieved in the last twelve months.

The incoming President, Mr. Nelson Rites of Crawford Roofing Corporation of Toronto, Ontario will be introduced along with the new members of the Board of Directors.

The financial business of the Association will be addressed with a review of the 2011 Financial Statements and the 2012 budget.

### Rooftop Photovoltaic (PV) Hazards

The OIRCA's Risk Management Committee released a bulletin this past year addressing hazards roofing contractors face when working on rooftops where PV racking systems are present.

Mr. Malcolm Brown, Technical Advisor for the Electrical Standards Authority will be with us to discuss the unique problems PV's pose for everyone that comes into contact with them on a roof.

### IHSA's COR Safety Program

COR is a volunteer occupational health and safety auditing program. It provides construction industry employers with an effective health and safety management system for reducing the human and financial costs of workplace incidents, injuries and illnesses. It is currently being used across Canada and is supported by the Canadian Federation of Construction Safety Associations. COR is beginning to be used during the prequalification process with both public and private-sector construction projects in Ontario.

Mr. Paul Casey, Vice President of Programs & Strategic Development for the Infrastructure Health & Safety Association will join us to discuss this Certificate of Recognition Program for Ontario construction contractors.
